

3D Embossed Wall Panel

Width: usually 1200mm (can be customzied)

Length: 2440 / 2800 / 2900mm (can be customzied)

Thcikness: 3 mm / 3.3 mm / 3.5mm (can be customzied)

Surface: 3D texture surface (stone like pattern)

Package: pallet packaging

Available color: marble, gilded, pure, metal, wood color...

Invention Patent Number: 202110814644.4

PRODUCT FEATURES

1. Distinctive Texture.

The surface of the pressed rock board features a concave and convex texture, with prominent grain and a unique character.

2. Diverse Designs.

Currently, we have developed nine series with over 70 patterns and colors. The comprehensive range of patterns and colors offers a unique and distinctive look.

3. High Strength.

The board is solid, and foam-free. It is made from natural mineral powder and undergoes high-pressure hardening treatment for increased hardness.

4. Impact-resistant.

The surface is specially treated for scratch resistance.

5. Formaldehyde-free.

Tested by the National Building Materials Testing Center, it meets the E0 environmental protection standard.

6. Fire-retardant.

Tested by the National Building Materials Testing Center, it meets the B1 fire rating standard.

7. Waterproof and moisture-proof.

It isolates moisture and is suitable for various living environments.

8. Convenient Installation and Easy Processing.

The board is easy to process, can be cut, and is easily mounted on the wall.
